Reasons for Allowance

The following is an examiner's statement of reasons for allowance: the primary reason for allowance of claim 1 is the inclusion of the guide roller having a diameter smaller than the door roller, the guide roller disposed in the door rail in the same orientation as the door roller and spaced from the ceiling of the door rail a distance smaller than the spacing of the door roller from the ceiling of the door rail. For claim 3, it is the inclusion of an eccentric shaft having two shafts, one to secured the guide roller and the other to the door. The prior art of record fails to teach or suggest the claimed features absent the applicant's own disclosure.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
